

RESUME of MICHAEL L. ALBRECHT

201010-55120-01

Michael L. Albrecht
123 South Chestnut Street
Belle Plaine, MN 56011

EDUCATION

- 1965 – present Hands on guided bird training with uncle (high school teacher and amateur ornithologist), constant use of his extensive library, since inherited from him.
- 1972 Belle Plaine High School - Diploma

WILDLIFE & BIRD RELATED EXPERIENCE

- 1969 Falconry Permit – issued by Minnesota Dept. of Natural Resources
- 1969 - present Bow-hunting for deer, and hunting wild turkeys and predators.
- 1967 – present Morel mushroom hunting, presentations at Belle Plaine library, and was featured in article in Belle Plaine Herald, and sold article to Fins & Feathers in 1982.
- 1969 – 1976 Active Falconer - Live trapping adults, training birds, and hunting with them and raising babies and training them, rehabilitating and treatment of injured birds of prey.
- 1992 – 2006 Field Journals of observations out in the field related directly to bald eagle nests and chick/fledgling numbers. Used for reporting to DNR's John Schladweiler beginning in 1992, and then Lisa Gelvin-Innvaer, working with my brother-in-law Bill Diers of Eden Prairie and my son, Adrian Albrecht. Together we discovered and tracked the Sibley County Nest #1, the first active eagle nest in that part of the river in 100 years.
- 1969 – present Building and erecting nest boxes for wood ducks, bluebirds, tree swallows, various woodpecker species, screech owls and American kestrels.

- 1969 – 1976 Trapping – live trapping of Red-tailed hawks and American Kestrels with a bal-chatri noose cage baited with mice, gerbils, rats, and sometimes English sparrows or starlings, deployed from a slow moving vehicle. Also used noosed pigeon harness for Red-Tailed Hawks, and occasionally mist nets/Do Ghazzi type trap, during fall migration of Red-Tailed hawks, using live pigeons as bait. Usually first year Red-Tails were caught and trained.
- 1970-1972 Lyceums at schools regarding falconry – show Red-Tail hawks, demonstrations, fly birds, provide information about raptors and answer questions at Belle Plaine and LeSueur elementary schools.
- 1976 – present Keeping, breeding and raising southern flying squirrels and conducting field studies on wild populations.
- 1989 – 1994 The Outside Inn – Exotic bird breeding facility owned by Bob & Carol Schmitz. Caretaker responsible for housing, care, feeding and sanitation of 150 or more pairs of assorted species of cockatoos, macaws, parrots and other exotic birds. Housing/nest boxes, lighting, diet and vitamin/mineral supplements. Incubate eggs in separate facility, syringe feed hatchlings, wean, raise and socialize birds until ready for sale.
- 1991 – 1993 Raised and maintained exotic reptiles, including various species of boas, pythons, monitor lizards and various frog species, including breeding and raising food supply of mice, rats and crickets. Consulted for Twin Cities reptile shop.
- 1992 - 2006 Volunteer for Nongame Division, Minnesota Department of Natural Resources. Reporting field data to DNR Nongame Division in New Ulm on eagle nesting pairs and chick production locations and numbers.
- 1999 Field researcher for Wisconsin based deer feed company owned by Joe and Bill Diers. Research conducted on a 200 acre river bottom property along Sibley County Road 6. Developed methods and recipes for feed and mineral placement to best benefit local deer herd and wild turkey

- molding superintendent/personnel director. Left due to back injury.
- 1989 – 1995 The Outside Inn, Savage 1989-1995. Reported to Carol Schmitz. Caretaker of exotic bird breeding facility 3 days per week, duties as above.
