Notice to Counties and Municipalities, under Minnesota Stat. § 216B.16, Subd. 1

Re: Minnesota Energy Resource Corporation Request for Increase in Natural Gas Rates

On July 31, 2008, Minnesota Energy Resources Corporation-NMU (“MERC-NMU” or the “Company”) filed with the Minnesota Public Utilities Commission (the “Commission”) an application for a general increase in rates for natural gas services provided to customers in the State of Minnesota of $3,625,268, or 4.58 percent, pursuant to Minn. Stat. § 216B.16.

In accordance with Minn. Stat. § 216B.16, subd. 2, the Commission has suspended proposed final rates to allow the Commission time to evaluate the application. In accordance with Minn. Stat. § 216B.16, subd. 3, the Commission has authorized an interim rate increase of $3,049,043, or approximately 3.85 percent to be effective October 1, 2008. During this interim period, all MERC gas customers’ bills will be approximately 3.85 percent higher, and the rates will remain in effect until a final rate level is determined.

The chart below shows the effect of the interim and proposed rate change on monthly bills for customers with average gas usage. The interim monthly bill amount includes a 19.14 percent interim rate increase on distribution margins. Distribution margins include the customer charge, the distribution charge, and if applicable, the demand charge. This calculation will not necessarily result in an interim monthly bill that is uniformly 3.85 percent higher than present bills because gas costs are not included in the calculation of the interim rate increase.

*The present rate levels identified in this application represent the rates authorized in Docket No. G007,011/GR-00-951.*

The Commission will determine the amount of increase in rates it will allow on or before May 31, 2009, and final rates reflecting that determination will be implemented thereafter. If the final rate level is less than the interim rate level, the amount collected during the interim period attributable to that difference will be refunded to customers with interest.

The proposed rate schedules and a comparison of present and proposed rates may be examined by the public during normal business hours at the Minnesota Department of Commerce, 85 7th Place East, Suite 500, St. Paul, Telephone: 651-296-4026; and at the following MERC-NMU offices located at:

- 301 2nd Street NW
  Bemidji, MN  56601

Re: Minnesota Energy Resource Corporation Request for Increase in Natural Gas Rates

On July 31, 2008, Minnesota Energy Resources Corporation-PNG (“MERC-PNG” or the “Company”) filed with the Minnesota Public Utilities Commission (the “Commission”) an application for a general increase in rates for natural gas services provided to customers in the State of Minnesota of $18,416,621, or 6.92 percent, pursuant to Minn. Stat. § 216B.16.

In accordance with Minn. Stat. § 216B.16, subd. 2, the Commission has suspended proposed final rates to allow the Commission time to evaluate the application. In accordance with Minn. Stat. § 216B.16, subd. 3, the Commission has authorized an interim rate increase of $16,787,734, or approximately 6.30 percent to be effective October 1, 2008. During this interim period, all MERC gas customers’ bills will be approximately 6.30 percent higher, and the rates will remain in effect until a final rate level is determined.

The chart below shows the effect of the interim and proposed rate change on monthly bills for customers with average gas usage. The interim monthly bill amount includes a 38.16 percent interim rate increase on distribution margins. Distribution margins include the customer charge, the distribution charge, and if applicable, the demand charge. This calculation will not necessarily result in an interim monthly bill that is uniformly 6.30 percent higher than present bills because gas costs are not included in the calculation of the interim rate increase.
